

# TG D70

Dynamic Microphone

## FEATURES

- Hypercardioid polar pattern
- High gain before feedback
- Integrated elastic suspension
- Rugged construction
- Extremely fast transient response

## APPLICATIONS

The dynamic microphone TG D70 is the perfect choice for miking kick drum. Natural sound, high quality materials and robust construction makes it the perfect choice in the long run. The hypercardioid pattern ensures high attenuation of ambient noise and high gain before feedback. Therefore the TG D70 is the perfect choice for loud environments, like stage applications. The microphone is also perfectly suited for cajón and bass guitar amplifiers.
